## RESEARCH SYMPOSIUMS PLANNED

A series of three symposiums will be held on the status and

future of research at Gallaudet.

The first symposium, scheduled for June 20 and 21, 1975, will be directed to the cultural and social orientation of deaf people. Fundamental questions regarding the spectrum of research at the College will also be examined.

The two subsequent symposiums will be held in the fall and winter and will deal with communication and educational development, respectively.

The central aim of each will be to develop a descriptive list of research problems towards which resources can be directed. For additional information, contact Clarence Williams.
